Straumann® BLX: Confidence beyond Immediacy

The Straumann® BLX Implant System is the next generation solution for confidence beyond immediacy.

Straumann® BLX has been designed for immediacy, and is also suitable for all other treatment protocols – ranging from immediate to conventional placement and loading – to suit the dentist's preference. The intelligent implant concept allows for Straumann Dynamic Bone Management and is designed for immediate protocols in all bone types. With a simplified but versatile portfolio, featuring one connection and under-contoured prosthetics to deliver esthetics with ease.

Straumann® BLX, the winning combination of innovative design and surface technology with high-performance material designed for predictable results you can trust.

More than just highest precision: a perfectly adjusted system

Straumann offers a wide variety of **implant-borne prosthetic solutions** for **all indications** − ranging from single tooth restorations to edentulous solutions. Our high-quality connection solutions, Straumann® TorcFit™, ensure **safe positioning** of the abutment on the implant and therefore **long-lasting stability.** A broad range of materials combined with a choice of screw-retained, cemented and hybrid restorations complete our portfolio.

Original on original

cessories" chapter.

Straumann knows all dimensions, tolerances and materials of all Straumann implants. With this knowledge we tune the design of implants and prosthetic components perfectly to each other. High precision in manufacturing and thorough testing processes ensure the consistent quality of all original Straumann components.

Straumann® CARES® for individual CADCAM prosthetics

Straumann® CARES® offers you prosthetic solutions from single tooth restorations to tooth-borne dental bridges, all the way to implant-borne restorations. This is complemented by a comprehensive choice of materials and simple processes. This means precision, a high degree of efficiency and highly aesthetic results in every single product.

In this chapter you will find a comprehensive list of instruments and accessories for implants and prosthetic treatments.

More than just accessories: the basis of flawless execution

On the following pages, you will find **all the important instruments and demonstration materials** that complement the Straumann® BLX surgical and prosthetics portfolio, from drills and surgical cassettes to prosthetic auxiliary parts, screws and storage systems.

Straumann® Modular Cassette Selection Guide

The selection guide helps to define the required Modular Cassette parts and instruments needed for a specific indication. Each chapter includes an order list as well as a set-up overview which shows how to assemble the parts.
